04:00 pm	<b>END OF THE EVENT</b>		

## Formats

In the **plenary** central aspects of EPICUR's work that transverse individual WPs are presented. It is also the forum where EPICUR showcases its major achievements and core beliefs.

For the **parallel panels**, we have chosen aspects of EPICUR's work that showcase our expertise and lend themselves to a more interactive presentation than what would be possible in a plenary. These topics are also central to our future work.

The **poster walk** is an informal and interactive way to get acquainted with the work of individual WPs.

The concluding section on the Thursday is the **Roundtable**. The discussion will have a focus on reflection on the partners' experience and lessons learned in the last three years and what will be taken forward into EPICUR SHAPE-IT.

## General remarks

**Events on Wednesday and Thursday are open to the public.** Partner universities are very much encouraged to invite non-EPICUR staff to Freiburg (please note that travelling and accommodation costs must be covered by the respective partner).

The Freiburg Team wants this event to be inclusive and encouraging diversity and equity rather than stressing differences and hierarchies. Every group involved in and contributing to EPICUR should feel welcome, safe and happy to participate.
